MTEARS 30 December 2025

This map is a visual and written record of significant changes to the MTEARS system recorded since this map was last edited and published in June 2025.

Links shown in RED are out of service until further notice.

Link #02 in Deason (Bedford County) remains in standalone mode. The link #33 Signal Mountain (Hamilton County) call sign was corrected on 6/19/2025. The frequency of link #47c Northeast Knoxville (Knox County) was corrected on 6/19/2025. Link #64 Chestnut Ridge (Moore County) on 442.575 MHz (107.2 Hz) came online on 11/3/2025. The link antenna on link #18b Fairfield Glade (Cumberland County) was reported damaged on 12/19/2025 but back in service on 12/27/25.

Individual links may be down on a short-term basis due to weather issues or for maintenance.
